

Impact of Ethanol Policy on U.S. Retail Prices for Broilers, Beef, Pork, and Eggs, 2005-2009

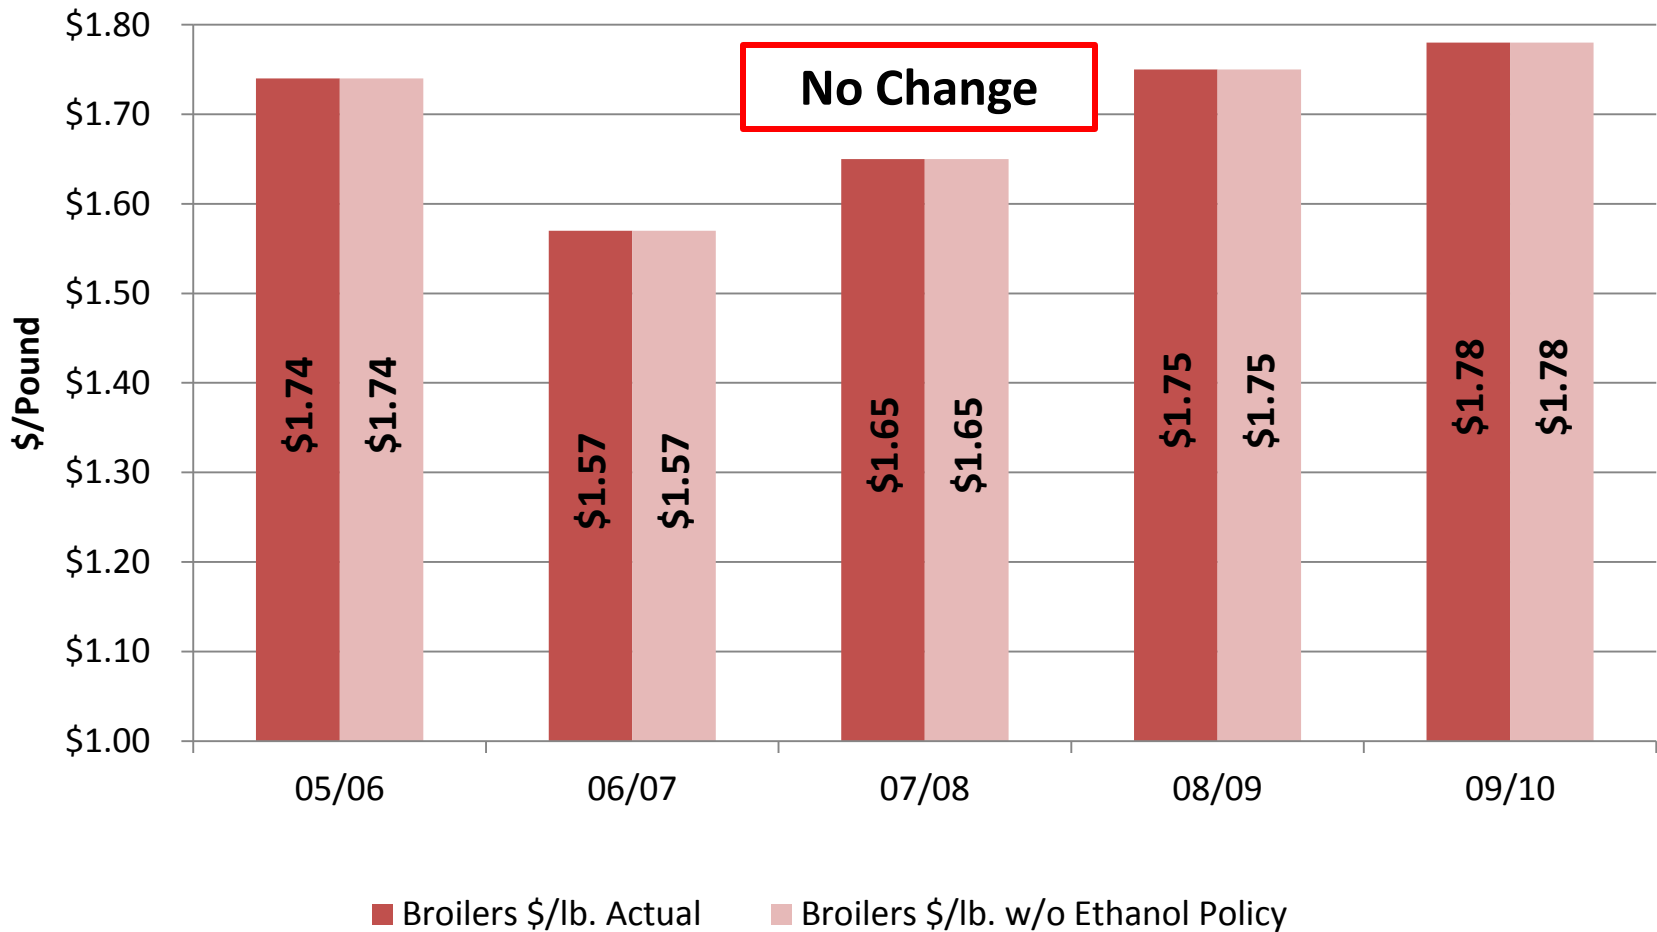

ICTSD Study Results

- Study conducted by Iowa State University for International Centre for Trade and Sustainable Development (ICTSD)*
- Study simulated retail food prices for broilers, beef, pork, and eggs ***with*** and ***without*** ethanol policies in place from 2005-2009
- ***Results show negligible or zero impact on retail food price from ethanol policy***
